## Design Flexibility

Easily Malleable, Easy to mould and weld, flexible

## Smart Solution

Can be laminated with other fabrics to improve properties; Flame retardant as per FM VSS 302, V194

## Light Weight Acoustic

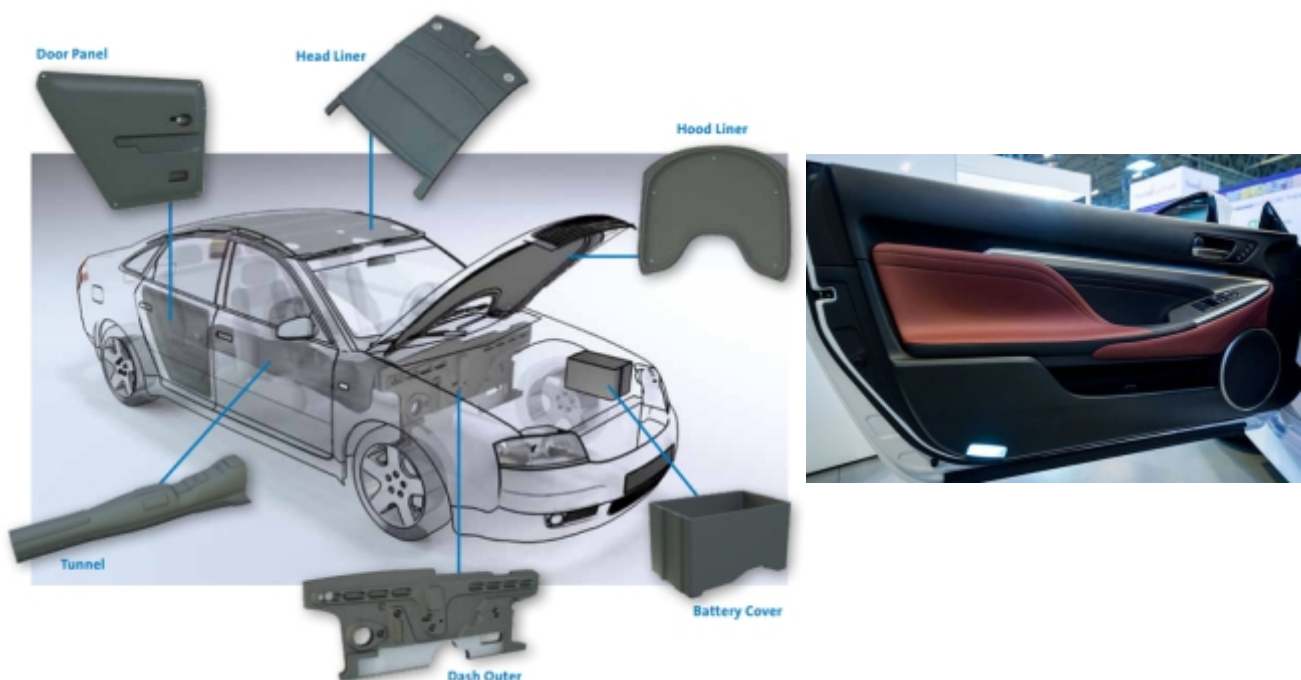

One of the best weights to enhance performance ratio for Acoustic & Thermal Insulation. Weight reduction upto 55%.

## Green Product

Contains more than 50% post recycled PET. 100% recyclability after use.

## Globally Accepted Solution

Globally being used in HCV and passenger Vehicles.

## Vehicle Cabin

Roof/Headliners \ Door Panels \ Dashboard Insulation \ Pillars

## Luggage Compartment

Trunk Lid \ Trunk Carpet \ Trunk Side Trick

## Engine Compartment

Bonnet Insulation \ Car Wheel \ Cabin & Engine Separation
